

Gmeinböck

SPARKLING ANIMALS 2025

WINE YEAR 2025

The 2025 vintage shows a lighter alcohol level and is characterized by fresh, lively acidity. The wines are precise and display a cooler character – a result of the rather rainy and cool summer of Poysdorf. Despite their fine acidity structure, they retain a pleasant drinkability and come across as wonderfully vibrant and inviting.

GRAPE VARIETY

The name Goldmuskateller, also known as Muscat Blanc à Petits Grains, refers to the muscat-like aroma. Together with the Gelber Muskateller, it promises concentrated fruit aromas. Its refreshing acidity and floral notes make it an uncomplicated and popular aperitif wine.

STYLE & CHARACTER

Our mythical creatures are also in the mood for cheerful bubbles and are delighted with the super-juicy Muscat. Because a Secco with a strong perlage is enchanting at any celebration. The unusual look also contributes to the enjoyment and is also a welcome sight in the SCHICKERIA!

FACTS

LOCATION:	Poysdorf / Weinviertel / Austria
VINTAGE:	2025
VINIFICATION:	Steel tank
DRINKING TEMPERATURE:	12-14°C
